IMPACT
parent-led therapy trial

Monthly Newsletter

SEPTEMBER

GOOD NEWS!

We are delighted to share on the 14th of September we **randomised our first group of families**. What an achievement! Thanks to all site teams and NCTU who pulled together to make it happen.

Our independent SLT will be in touch with families randomised to the It Takes Two to Talk group to schedule sessions. Site teams should remind parents not to share which group they are in. Please get in touch if you have any concerns.

Qualitative Sub-study

Don't forget to mention the sub-study for families where English is not their dominant language spoken at home. We need their contact details and verbal consent to interviews, our qualitative researcher will be in touch soon!

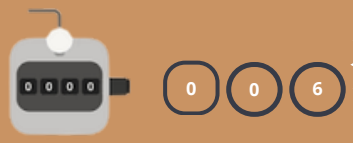

Screening log

Have you had any new referrals this month? If so get those screening logs completed!

Recruitment update

6 participants consented, lots more in the pipeline!

1 group randomised

Ensure to upload completed consents onto REDCap

Schedule the next PLS-5

If you have received an automated email providing you with a schedule for the next PLS-5 completion for 6 and 12 months, go ahead and get them scheduled in.

Site update

- Nottingham
- Scotland

Surgery and CI switch-on

Eligibility confirmation: Ensure for all children where surgery and CI activation is complete, eligibility has been confirmed and REDCap updated as soon as possible.

REMINDER

If you have received a survey to complete, on *current paediatric CI practice in the UK*, please complete at your earliest convenience. Click here for link to survey.

If your site surgery times have changed, let us know!

Site drop-in session

The next site drop-in session is taking place on the **8th October at 12pm.** These drop-ins are a great opportunity to meet other site colleagues and discuss questions you might have.
