IMPACT
parent-led therapy trial

Monthly Newsletter

October

Just in!

A recently published paper showed how effective language programs taught by parents or caregivers significantly boost talking and understanding skills in children under five.

Click the link below to access the full article:
Effectiveness of Caregiver-Mediated Spoken Language Interventions for Children Under Five at Risk of Developmental Language Disorder: A Systematic Review and Meta-Analysis

Recruitment update

- **2** participants consented in Oct
- **10** participants consented total
- Group **1** randomised 14-Sep-26
- Group **2** forming

Screening log

If you've had any new referrals this month, go ahead and complete the screening log!

IMPORTANT

Commitment to IMPACT

1. Ensure that the parent information sheet has been well understood by parents/families before proceeding with consent.

2. Discuss the **time commitment** required by parents if they receive the intervention arm (ITTT): The parent/caregiver is expected to attend all sessions in full, estimated at 1-2.5 hrs per session, per week. Total course is **25-30 hours**

3. Parents must have **childcare cover** when attending ITTT sessions that do not require their child to be in attendance.

Ensure to upload completed consents onto REDCap

Site update

OPEN

06. Nottingham
(PI- Angela Maxwell)
07. Scotland
(PI- Martin Ramsay)

Qualitative Sub-study

Where English isn't the dominant language spoken at home, tell the family about our qualitative sub-study! All we need is their verbal consent to be contacted and their contact details; our qualitative researcher will be in touch with them thereafter.

Surgery and CI switch-on

Eligibility confirmation:
Ensure for all children where surgery and CI activation is complete, eligibility has been confirmed and REDCap updated as soon as possible.

REMINDER

If you have received a survey to complete on:
"Current paediatric CI practice in the UK"-
Please complete at your earliest convenience.
Click here for link to survey.

Site drop-in session

The next site drop-in session is taking place on the 19th November at 12pm. These drop-ins are a great opportunity to meet other site colleagues and discuss questions you might have.
